SVITLANA VOLOSHCHUK

Front-End Developer

I am looking for an opportunity to be employed as a Junior Frontend Developer.
I have spent the last year for intensive studing and practising my tech skills in my pet-projects and I consider that the main my achievement on today have mastered more then ten tech skills in web-development during this year.
Also I have previous background that allowed me to know how to be a responsible, communicative, attentive to details team player, and how to find the ways of problem solutions. I want to push acquired bounderies and grow to become proffesional Frontend developer. I believe that dedication to learning, persistance and previous experience I've acquired will help me to achieve the goals I've set .
